Dear Mr. Swauger:

This is to acknowledge with my thanks your letter of 29 February, as well as the pamphlet entitled "We Humans". I found the pamphlet interesting and sound, and I think you are moving in the right direction. Do you have any indication of the reactions of the people who saw the exhibit in the city schools, etc.? It would be very interesting to know what kind of an impact it is having. That would help you in any plans for the future. It has always seemed to me that we need to build in a little more "evaluation" into activities of this kind.

In any case, I want to wish you the best of success with this project, and I should appreciate your keeping me informed as to how it develops.

With my friendliest greetings,

Yours sincerely,
